Ofsted Inspection June 2017

Recommendations

Priority: IMPACT AND EFFECTIVENESS OF THE BOARD:

The Board is collectively owned across partners and makes a positive difference to the outcomes for children and young people

OBJECTIVES:

- Develop and refine multi-agency dataset
- Deliver a robust forward audit programme which facilitates scrutiny across the Board's key priorities.

OUTCOME TO ACHIEVE

- There is evidence that Board members use the dashboard to gain assurance, identify risk and to influence future work, practice, policy and training development.
- Quality Assurance & Evaluation Sub Group drives the development and implementation of a robust Quality Assurance Framework
- There is robust annual programme of single and multi-agency data scrutiny and key issues from this are reported to the Board.
- There is clarity about how all partner agencies are involved in scrutiny and challenge where performance is not improving and is needed to secure better outcomes for children and young people.
- There is evidence that audit recommendations are monitored and are influencing forward work planning, policy, practice and training development.

99. Ensure that a comprehensive dataset is developed in order for the board to monitor and challenge partners regarding safeguarding performance and to measure outcomes against its business priorities.
