

Following on from the successful 1-day Neglect Conference held in April, we are pleased to announce a drop-in workshop for all colleagues who might want to discuss ways of engaging families in conversations around safeguarding and child protection.

Each session will have representation from partner agencies who will be available to share practice and discuss complexities that you may be experiencing.

Refreshments will be available – No booking required just drop-in! For more information, please contact paul.cox@n-somerset.gov.uk

"It made me more aware of only being factual, and thinking about statements we make like... "child looked dirty" what does that mean?"

"It highlighted the complexities we face in supporting families living in poverty and the links between poverty and neglect, and just how difficult this area of work is in practice."

NSSCP North Somerset
Responding to Neglect

Date: 23rd April
Price: Free
Location: The Winter Gardens Weston-super-Mare BS22 1AJ

research in practice
